

INTERIOR DOOR FOCUS:  
**URBAN  
INDUSTRIAL**

# Industrial style doors that stand apart from the rest

Combine the cool appeal of the urban landscape with the smooth, stylish lines of modern living. Our Urban Industrial door range has been designed for the home and constructed with quality and practicality in mind.

- ✓ **Finished**
- ✓ **Robust construction**
- ✓ **Solid lock blocks**
- ✓ **Constructed with individual panes of glass**
- ✓ **Suitable for standard ironmongery**

### The Finish

All of our Urban Industrial doors are supplied ready to fit with either a high-quality painted finish (available in black or white), or durable laminate finish (available in graphite grey).

### The Style

With their clean, visually arresting lines, you have a choice of panelled designs in both solid and glazed options. The bold, geometric styling of our Urban Industrial doors is perfect for contemporary, industrial, scandi and japandi inspired interiors.

### Construction

Solidly constructed with 9mm MDF panels, Urban Industrial doors are robust and thicker than similar alternatives on the market. Glazed doors are made with individual panes of tempered safety glass, unlike a common cost saving construction practice where the profile bars are fixed on to a single pane of glass. As all our Urban Industrial doors have solid lock blocks, you have peace of mind when fitting ironmongery, as there is no worry about drilling straight into glass.

# COSMO GREY

Cosmo Grey

## Combining laminate and industrial style

The Cosmo door combines the trend for hard-wearing laminates, alongside industrial design. A first for this style of door, the stunning graphite grey laminate offers a durable tactile finish and is a great alternative to the painted Urban Industrial doors.

Glazed Cosmo doors are fitted with individual panes of clear flat safety glass.

Solid framing and lock blocks mean the doors are suitable for regular door ironmongery.

# CITY

City Black

## Art deco inspired industrial style

The City door features a fresh Art Deco style line design. Whether you choose it in black or white, this is a door which oozes effortless refinement.

Glazed City doors are fitted with individual panes of clear flat safety glass and the City Black also comes with a tinted glass option, giving two totally different looks.

Solid framing and lock blocks mean the doors are suitable for regular door ironmongery.

# CIVIC

Civic Black Clear Glass

## Confident industrial style that creates a wow factor

The Civic's six industrial style panels and striking geometry creates a stunning visual statement for any room, whether in black or white.

Glazed Civic doors are fitted with individual panes of clear flat safety glass.

Solid framing and lock blocks mean the doors are suitable for regular door ironmongery.

# METRO

Metro White Clear Glass

## Sophisticated industrial style with a touch of class

The Metro's ladder style panels take the simplicity of industrial style and add a touch of sophistication to this timeless design. Available in either a black or white painted finish.

Glazed Metro doors are fitted with individual panes of clear flat safety glass.

Solid framing and lock blocks mean the doors are suitable for regular door ironmongery.

# Installation

Our Urban Industrial doors come finished and ready to hang. We recommend using 3 hinges to hang each door to prevent warping.

## Trimming:

	MAXIMUM TRIMMING		
	off each long edge	off each top edge	off each bottom edge
35mm standard & glazed doors	2mm	nil	10mm

Trimming allowances are for guidance only and if required should be kept to a minimum.

## Rebated door pairs:

Urban Industrial doors can be ordered as a rebated door pair (where a small section along the vertical edge of each door is removed so that they fit snugly together). Please ask for more information.

## Edge painting:

If the door edges are trimmed they will need to be repainted. We recommend the following paint colours as the closest match, mixed to a sheen level of 15%:

- Black – RAL 9005
- White – RAL 9003
- Grey – RAL 9004

## Door Care

Urban Industrial doors are easy to maintain. We recommend cleaning the face of the doors on a regular basis with a damp cloth and mild detergent, followed by a dry cloth.

## Door Handle Packs

Urban Industrial doors can be fitted with regular ironmongery. Take a look at our range of handle packs, which include a pair of handles, a latch and 3 high quality, stainless steel ball bearing hinges.
